

Environmental Policy Statement

In all areas of conducting the daily activities of our business, Astute will seek to take all reasonable steps to protect the environment. This commitment covers all locations and divisions of the company.

Key Policy Principles

- To take the necessary actions and provide adequate resources for the business to meet with its environmental duties.
- Recognise the need to minimise waste in all its guises, encouraging the use of renewable products where reasonably possible.
- Paying close attention to the company's use of all energy resources, attempting to minimise where possible.
- Encouraging and environmentally-friendly attitude and providing the necessary resource to enable all employees to see the business and global benefits of environmental protection.
- Regularly reviewing our environmental policies and communicating our commitments to the business as a whole.
